Clouds will be increasing today along and ahead of a weak frontal boundary shifting southward through the region. Temperatures will climb quickly ahead of the front along and south of I-20 with mid to upper 90s expected for afternoon highs across much of east Texas and north Louisiana. Isolated to widely scattered showers and thunderstorms will develop throughout today as the front advances south before stalling out across our southern sections. Overnight lows will fall back into the lower to mid 70s with isolated showers and storms still possible along and near the front
